

Swinging weekend

We left early on Saturday and it was only an hour drive to our cottage. Adam and Lori had never been there before. It was very hot and we changed into our swim suits, grabbed some fruit and headed for the beach.

Jane and Lori headed for the water and Adam and I grabbed a beer. After the second one I told Adam that Lori was good eye candy. He agreed and said that Jane looked really good. The girls came up to get dried off and Adam was going to towel Lori off, walking near Jane she told him, why not me? He said ok and Lori started to dry herself and I offered to help. We all laughed about the "swap". The girls went to get their wine and brought us back a beer.

We showered then went out to dinner and dancing. Things got really hot, even when we were with with our wives. We left early for the cottage. The short ride back we agreed to a drink and early bed time.

The girls got into their night gowns, pretty but not very sexy. I commented to Jane that she had some "hotter" negilees - her face went beet red and said not tonight. Everyone laughed and Lori said "bedtime".

The bedrooms had paper thin walls so I knew there would be no sex tonight. Jane was a very private person and was sure Adam and Lori would hear us if we tried to have sex. We cuddled and dozed off.

I woke to hearing a little squeeking of Lori and Adam's bed. I was envious. Jane sensed I was awake and then she heard it. They were obviously having sex but very quiet and cautious. Jane cuddled. Then there was low single moan and all was quiet.

Jane said she was really horny but we couldn't do it. She reached in my shorts, finding it hard she took it in her hand and played. I pulled her PJ bottoms off and played with her...we kissed while we fondled. Then her head went under the sheet and took me in her mouth, something she refused to do before. She got me real close to coming then stopped...then again. When I reached between her legs I thought she had wet the bed. Her juices were running down making the sheet wet. Her face was flushed, her nipples hard. We were both sweating from the heat and from all the tensions between us. She rolled over and I quietly climbed on her. It slipped right in and she gasped with joy. I moved gently with short strokes, keeping the shaft rubbing on her hot spot. We did this for several minutes. Then she made me stop. She couldn't take it any more.

We laid joined together very quiet with our hot breaths on each others face and neck. I started to move again, first short firm strokes. Her pleasure started to peak so I took full strokes plunging deep into her. Then as I was pulling up she pulled back and I came out. She told me to get out of bed quietly and follow her.

No clothes on we walked into the living room and she had me lay on the floor. She mounted me, again which she had never done before. Her hips swayed back and forth taking me deep into her...the back and forth action kept me deep. It was so pleasurable I had to fight to keep from coming. Her action got faster and faster and I couldn't hold it back. I exploded and she kept going finally letting out several loud moans. In our 8 years of marriage I had never come so hard. We were soaking wet, head to toe and most of all in between.

The next day our eye contact between each other was misterious and warm. We agreed to get together again this summer. Time will tell.

About the Author

A national sales executive for an engineering company. Usually very conservative but couldn't resist sharing this experience with others.
