

Reluctant Wife Tammy Cums on Huge Cock

My wife Tammy is a small, petite 125 pound woman and we've been married 10 years with a pretty good sex life. She recently had a boob job to in her words "Get her boobs back" after having two children. She used to have great 34D tits with big areola and after breast feeding and milk pumping, long and thick nipples, a nice flat sexy stomach and something she hasn't lost, a tight bubble butt ass. She was a roller skater and athlete so she has great muscular thighs and an awesome ass. With those tits, and because of the boob job, her areola are completely stretched to their fullest with her nipples seemly always hard. I think she is the ultimate MILF.

A couple years ago I wanted to spice up our routine and bought an "Doc Johnson clear dildo to try out on her. She immediately said no. but after some begging she did try it after using a vibrator, got off. Afterward she said it was too big. We ended up using it a few more times before I bought a bigger dong, the Special Effects dildo that was about the same length but almost 2.5 inches wide and pretty hard. Without telling her or showing her it I tried inserting it in her and she gasped and looked to see what it was. "That is way too big! It looks like a Leroy dick!" Needless to say that night was over and I never tried using it again but I still was fascinated by watching her take a cock up her pussy. I dreamed about her using a huge dildo but it wasn't going to happen with this one.

About this time we were at a party and Tammy's girlfriends were talking about one of the husbands having a big cock. I have an average sized dick maybe 6" long and 1 1/2" wide and Tammy had always told me she didn't like big dicks. I overheard Tammy asking more than a couple times about it like "Is it long or is it thick?" I could tell she was curious despite her claims of not being interested in large cocks.

A few months went by and I decided to try again by buying an "by 2" red jelly dong. I was nervous about Tammy's reaction and she first said "Not again, another dildo?" I asked her to just try it and surprisingly she said alright. I told her to use the vibrator as I slowly inserted the dong. She did have an orgasm with it inside her and after she came, I fucked her until I came in her pussy. Because this one was softer she seemed to like this dong more than the others and we would use it regularly. Once again I had visions of her being filled with big cock and happily for the local sextoy shop, another dildo was added to the collection... Kong the Realistic measures in at about 8 1/2" in length around, the same as the others we had been using but it was incredibly thick in comparison, 2 1/2 inches across and over 7 inches around with a really fat head. As I opened the box to see it my thought was "Oh shit there is no way she's going to take this or even try" It was at least as big if not bigger than the huge "Leroy dick" she complained about before but softer. It took me a week or so to work up the nerve to use it and once again I received the same reaction from her. "Why did you buy another one?" I pulled all the stops out trying to convince her to give it a try and finally she said "You're such a pervert!" I silently agreed but waited for her to talk herself into using the huge cock. She said reluctantly "Alright, but go slow!" I was nervously hoping that she would be able to take this massive dildo up her pussy and decided to try and relax her.

I had her lie down and massaged her feet, back and neck muscles with lotion and slowly worked my way down to her round tan-lined ass cheeks and worked my fingers into her smooth skin kneading and alternately spreading open her ass to see her puckered brown hole and full pussy lips and then squeezing them together. After this warm up, she flipped over and I gave her the bullet vibe to get herself going as I grabbed the lube and greased up the huge head of Kong. I slowly pushed a couple of fingers into her pussy to get some lube inside her and then began rubbing the fat head up and down her pussy lips. I began to gently push and twist the bulbous head into and she tensed up as the giant head began to enter her. Tammy flinched again and said "Stop pushing!" and much to my surprise said "Let me do it" I was shocked and aroused by her response and excitedly said "OK" "I'll just hold it for you".

As Tammy held the vibe on her hardening clit, I held onto the balls of the huge cock and let her start to gently push more and more of it inside her. At one point it seemed to get stuck and she started to squirm and struggle but feeling a slight pop the massive head and thick shaft entered her pussy and she relaxed again. With her eyes closed and the vibe held tightly on her clit Tammy gently started to move her hips up and down on the huge cock. I was in awe of the fantastic sight before me! And my cock was rock hard and erect. She was on her back with her legs spread open, the gigantic Kong cock now 3/4 of the way inside her hot pussy with her lips stretched out fully around it. I lubed up the edges to allow her lips to get all the way around the over 7 inch circumference and felt the giant dick opening her up.

I could not help myself and grabbing my dick, started jacking my cock and taking in the sight of Tammy fucking herself with this massive cock, her big tits heaving and eyes shut tight. As she got closer Tammy feverishly rubbed her hard clit with the vibe and her face and mouth started to get tense and tight as she began to lift her ass off the bed straining toward getting herself off on the huge dick. I reached up and grabbed her big round tits, rubbing her hardening areola and pinching and pulling her thick 1" long nipples which always sets her off. Tammy exploded and came all over the giant cock moaning and grunting as her mouth and face grimaced open in ecstasy and pussy spasmed on the enormous cock. I couldn't hold back any longer and started shooting my load of hot cum toward her stuffed pussy, the hot cum hitting all around her ass.

Afterward I slowly pulled Kong out of her now gaped and wet pussy lips. She flinched as the fat head pulled out of her, glistening wet with her juices and incredibly warm. I couldn't help but think to myself, she really doesn't like big dicks does she?
