

old woman next door 3

On the way to the shower the guilt was killing me, so when I got to the bathroom I told her I had to shower quickly and get home before my wife.

When I got home I felt a strange feeling, I was feeling guilty and I also couldn't stop thinking about the great sex. A couple of weeks went by and I tried to forget what had happened.

Then one Saturday my wife was scheduled to work the whole day and she was getting ready for work when she said "Mary called and asked if I would have you come over and change a couple of light bulbs that are burnt out". With that said I almost had a heart attack, what else did she tell I was wondering. So quickly I said "I was going to play golf today", my wife reminded me that she is a sweet old lady with nobody to take care of her. With that said she went off to work. It took me 30 minutes of thinking before I made a decision. Should I or shouldn't I, that was the question. I had almost convinced myself that it was a dream and it hadn't really happened. I know it had happened, as my dick was now hard just thinking about it, so next door I went.

When I knocked at the door, Mary came to the door and greeted me and asked me in. I went in and she ask me to have a seat as I sat down on the couch she sat down in the chair away from the couch. We sat there saying nothing for like seemed to be a life time. Then she spoke up and said "Bart what happened 2 weeks ago is our secret and will tell no one". That was such a huge load of my mind, I told her that I was feeling guilty and that I couldn't stop thinking about what we had done. She came over to the couch and sat next to me. She told me that the secret was safe and the next move was up to me. I couldn't hardly look at her so I was staring at the floor. We sat in silence for a few minutes.

Then she made her move and reached down and rubbed my dick through my pants, and said please stop me if you want. I knew at that moment that she had me again. I turned around and embraced her and we kissed, our tongues exploring each others mouth. All the while we kissed I was rubbing her nipples through her dress. Her nipples were rock hard pushing against her bra.

She stopped kissing me stood up and slowly unbuttoned her dress and let it fall to the floor. I stared more this time taking in the site, an old woman body full of wrinkles, body sagging all over, and those great nipples begging to get out. I leaned forward and reached around her and un-hooking her bra, letting her tits sag down to her navel. I then slid her panties down past her big wide hips til they hit the floor, where she stepped out of them.

She ask me what my fantasy was, and if she could fulfill them. I told her that my sex life with my wife was pretty much the same all the time, and that my wife wouldn't even have sex unless the lights were off. I told her that I couldn't stop thinking about fucking her feet last time, and that her pussy was the tightest that I have ever had.

Mary leaned forward cupping her left titty and pushed it towards my mouth, telling me to suck her nipple. I as played with her nipple with my tongue as it poked out all the way. Her nipples is the largest ones I have ever had in my mouth. Mary was moaning now, telling me she wanted my pretty dick. I have never had a woman want me so much, this is such a turn on for me. I stood up and she helped undress me slowly, when I was down to just my briefs, she was tracing the outline with her fingers. She ask me if I wanted to try something she had been thinking about, without a second thought I was nodding yes.

She bend down and slid my briefs down around my ankles and I stepped out of them. She grabbed my hand and led me toward her bedroom. We climbed into bed and she told me that she wanted to try something she had seen on the internet. I ask her what she had in mind, she told me that she didn't know if she was limber enough, but she had been stretching ever since our encounter. I was getting rock hard just trying to imagine what she had in mind.

She had me lie on the bed on my back and straddled my mid section facing my dick. She grabbed my cock and said "my this is such a sweet hard cock". She said "I want to see if while sitting on your face, I want to jack you off with my feet. WOW, that sounded so damn good. At this point all I wanted was her old pussy in my mouth. I grabbed her by the hips and moved her back toward my head. She squatted down over my face and her pussy smelled so sweet. She tried to position herself over my face while pointing her feet towards my rock hard cock. After three failed attempts, I was so hot, I rolled her over on the bed dove down on her pussy with my mouth in the sixty nine position, hoping she would take the hint. I made the first move and went right for her warm wet pussy. She clamped her legs tight around my head and was trying to push them open to get more access to her swollen lips. I was licking her cunt for all I was worth, she was grinding and moving so much, I was barely able to stay on top of her. She did manage to find my hard dick and get it into her mouth, but she was moaning and groaning and moving so much that she gave up and grabbed my ass with both hands and buried her head between my legs, begging me to make her cum. I have never been so damn excited, as she was talking dirty to me, something my wife had never done. She was saying "oh yes, oh yes lick Mary's pussy, your the best pussy eater I have ever had, give it to Mary good". Wow, I thought I might just cum with her talking to me, then she started chanting, fuck me with your tongue, fuck me with your tongue over and

over again. I can't tell you how long I ate her out, but when she shot that first major wave of warm juice all over my face, I went wild.

I told her I wasn't stopping till she did that again. I was licking that pussy like a starving man. I explored every square inch of that tasty pussy. She kept moaning and chanting telling me to tounge fuck her hard. It didn't take long till she exploded with a warm rush of juices all over my face again.

I rolled off her and told her if my dick didn't get some relief soon that I was going to die. She leaned over and reach into the night stand and brought out a bottle. I ask her what is was and she told me she had bought some oil at the local adult store after our last encounter. I wondered why we needed oil her pussy was so wet now.

She opened the bottle and poured it all over my cock and started rubbing. The she poured oil all over her feet and told me to fuck her feet like last time. This is what I have been dreaming about since the last time. She rolled over and laid on her back bending her feet back toward her ass. She told me to strattle her back and hold her feet together. This took me a couple of tries to get right, but I had a great view of her large ass and feet. I pushed her feet together and slide my hard cock between her soles. Oh, that felt so good, even better than last time now that oil was on there. I was pumping slowly enjoy the sights and the feeling, the whole time Mary was telling me what a pretty cock I had, and how it was going to feel so good with my hot cum all over her feet again. I fucked her feet for about five minutes, when she was coaxing me to fuck her feet hard. I couldn't resist so I starting hammering her feet, she was in a frenzy screaming for me to fuck her feet harder. My god this was such a turn on I couldn't beleive it, here i was again fucking this 65 year old womans feet and loving every damn second of it. Then she started screaming that she was cumming again, which made started exploding cum all over her feet and legs. I fell off her and rolled over on the bed looking at the ceiling.

Mary didn't miss a second and was down sucking the head of my dick ever so soft. I was still so sensitive from cumming that I jerked on the first lick. But she gently sucked it clean while cupping my balls in her hand.

She told me to lay back and close my eyes while she brought my cock back from the dead. She handled my dick with the greated care, sucking, licking, and stroking it with her wrinkled old hands.

She told me to she was getting it ready for the fuck of its life. I laid back with my eyes closed thinking about what was to come.

It took me about 30 minutes to recover from that foot fucking. Mary had been coaxing my cock the whole time. She then shocked me by telling me she was a dancer in her younger days and at one time she had been very limber. Mind you I was having trouble seeing that, Mary was around 5' 7" tall and weighed at least 190 I would guess. Most of that was ass and tits I would say. She told me again that she had been stretching since our last encounter. And she wanted to show me something. She moved on the bed and laid on her back, she reached down and grabbed her right ankle and struggled to get it over around her head, she then grabbed her other ankle and did the same. Now this site is hard to descibe in words, she had both feet around the her head, with her pussy so exposed. Both her tits were laying on the bed on each side. Be playfull I rubbed her pussy with my hand, then I had and idea. I grabbed the right titty and pulled it between her leggs to see if it would reach her pussy. With her bent like she was it reached her now swollen lips. So I was rubbing her tits again her own pussy. She was so turned on, and told me to hurry up and get my hard cock into her pussy, as she didn't know how long she could stay like this. I positioned myself in front of her widely exposed pussy and slide my hard cock into her warm wet pussy. Man it felt like it went in a mile, she told me to fuck her hard and fast as she couldn't last like this long. About about 2 strokes she was so wet I was slamming my hard cock in and out.

I have never had a women in this positon before, for the first time I felt that I had a monster cock, even though its only 5 1/2 inches rock hard. Every thrust I felt my ball slapping agaisnt her. I was in a fucking frenzy for about 4 minutes when she told me to pull it out when I cum, cause she wanted to see the results. I was pumping as hard as I could for the next 60 seconds, with her screaming "fuck Mary's pussy good". When I was about to cum I pulled it out just in time to aim it up toward her chest. The first shot landing up past her chest almost to her neck, as I stroked the next few pumps the rest shot all over her stomach. Mary with that let her legs fall down. We laid there on the bed for over an hour just talking about how good a fuck it was. Look for the next old lady next door story to find out what happens next.
