The guys went to check in the room. The girls stayed in the caddy sipping wine. One has 40 d’s, very curvy, long hair with hazel eyes. The other is thinner, tall, short hair and small, perky tits. They are feeling no pain and looking forward to their night. The promise of a hot tub, wine and good pot has them thrilled.

The guys are also looking forward to their night with two lively girls who have no inhibitions. They are well built, tall and handsome with strong sex drives. Both love to have their cocks sucked and fucked. Plenty of wine and pot is on hand to insure a good time is had.

The room is on the 5th floor with a balcony out over the beach. There is a hot tub in the middle of the room with mirrors on the ceiling. Big king sized beds on each side of the hot tub with movie cameras built into the headboards. The setup is ideal for incredible sexual experiences.

The all enter the room ready for fun. It’s late in the day and the sun setting on the water is beautiful. The girls go out on the balcony with their fresh glasses of wine. The guys roll up a couple joints and get some wine to join them with. The sea breeze feels so good and before long the girls are out of their clothes.

They just had to feel it all over their skin. Their nipples react instantly and harden. The smell of hot, wet pussy hit the guys and their cocks start to harden. They walk over to the girls and stand behind them. Taking each girl by her hips they push them towards each other. Taking their hands they reach the other girl’s tits.

The girls take the hint and start caressing each others tits. They lean in and start to kiss each other long and deep. The guys are rubbing their bodies, kissing and nibbling their necks. The girls rub their asses against the guy’s hard cocks. It doesn’t take long before the guys can’t stand it and they bend the girls over the balcony. They take their cocks out and shove them roughly up the girl’s pussies. They fuck hard, fast and cum quickly.

Afterwards they all decide to check out the hot tub. The wine is flowing and more joints are lit. The hot, bubbling water feels so good. The girls start rubbing the guy’s cocks getting them nice and hard. Each girl has one hand on each cock. They start to kiss the guys with lots of tongue. Then they start kissing each other again as the guys rub their tits.

Each guy has a hand on one of each girl’s tit. They rub and knead their tits getting the girls all hot and wet again. Then the guys slide up out of the water, sitting on the side of the hot tub. The girls each take a cock in their mouths and start to suck and lick. They draw the cocks deep down their throats and swallow the heads. As the guys start to fuck their throats the girls start fingering each others pussies. After a bit of time passes the guys pull their cocks out and switch girls. The girls are getting hot as they shove their fingers in and out of each others pussy.

Soon they start begging the guys to fuck them again. They all four climb into one of the beds together. The guys slide their cocks into a pussy and start to ride. Then the girls want to eat pussy. They lay down head to toe as the guys slide their cocks back in the girls start licking each others clit. They get so hot fast and within minutes they start cumming on the guy’s cocks. Pussy juice is now flowing everywhere and drips down onto the girl’s assholes.

The guys say they want to fuck some ass and the girls want to take turns at this. One guy lays down and one girl helps the other lower herself on his hard cock up her ass. As soon as she is set she leans back. The other guy slides his cock in her pussy. Now she has two cocks in her sliding in and out. As she rides the cocks the other girl is sucking and rubbing her tits. She cums really hard and her pussy juice keep the guy’s cocks well lubed.

The feeling of the guys cock rubbing against each other inside the girl is driving them crazy. Soon they cum, filling her up till her holes over flow. They pull out and fall against the pillows. The girls get up and refill their wine glasses and pass out more joints. The girls are still hot so they climb back into the hot tub with a couple toys.

The guys watch as the girls rub and kiss each other. They start sliding dildoes in and out of each others pussies. Then they get out and get on the other bed together. They start to 69 each other as they keep sliding the dildoes in and out of their pussies. The guys can’t stand it long and climb into the bed with them.

They turn the girls onto their sides and lift a leg up high. This gives them access and they slide their cocks up the girls asses. They start to fuck their asses good and hard. The friction of the dildoes in the pussies as they slide their cocks in and out has them cumming hard before long.

Afterwards they all slide back into the hot tub to clean up some. The hot water relaxes their tired muscles as they drink more wine and smoke one more joint. Then they all crawl into one of the beds together. The girls face each other and wrap their arms around each other bodies. Then guys snuggle up behind them wrapping their arms around the girls too. They all drift off into a very peaceful satisfied sleep.
