

## The Squirter

The boss came by and said we would take the rest of the day off. As I walked to the bus stop, a waitress at the diner where I often ate breakfast walked out in the street. Her shift was finished and she was going home. She said we both got caught out in the rain and laughed. We made it to the bus stop where we could get in out of the weather. We started talking as we stood there, soaking wet.

As we talked I was sizing her up, she was very pretty and had quite a figure, a little older than I and always dressed nice. She was always nice to me but I did not think I was in her league and I sort of thought she was engaged or something. She had asked if I had to go back to work and I said not until tomorrow. She told me she was done for the day then asked if I might want to go to her place and dry off so as not to have to be wet all day. I said sure if her mom or boyfriend did not mind. She stuck her tongue out and said she lived alone so I better be good. She had flirted with me before in the restaurant so I just smiled and said I was always good.

We went to her apartment, which wasn't far. When we got there she gave me a robe of hers to wear while she took my clothes to wash and dry them. Talk about service, she helped me disrobe and standing behind me, pulled down my shorts saying those too!!! Little did I know how much service I was going to get. She asked if I would like a glass of wine to warm me up and I said that would be great. She asked me to open the wine while she changed. I opened the wine and poured us both a glass. I was wondering what was taking her so long in the bedroom so I had another glass of wine. I was about half done with the second glass when I about choked; she walked out with nothing on but tiny panties and a very revealing bra over a hot set of tits. She smiled and said she couldn't find anything nice to wear and hoped that I didn't mind, Of course I didn't... not at all; except for the fact that the robe I was wearing was short and my cock was fast getting harder and harder to hide. Damn was she pretty, really sexy and not a hint of shame over being almost naked.

Well to make a long story short... we ended up on the bed for what seemed like 2 hours of foreplay, kissing, feeling, fingering and licking the sweetest pussy I had ever had. She did almost everything to me, from biting my ears, my nipples, new to me, then sucking my cock and asking me to shoot the first load in her mouth!!!! No sooner asked than done and she swallowed it all!!! This was another first for me, before that my few blow jobs were the pull out and cum or have it spit out as I finished cumming.

She came up and kissed me and we carried on as before, only now she kept playing with my cock as we made out, telling me how nice it was, that I was quite big and she knew it would feel good inside her, that she was on the pill and wanted a load shot up inside her to meet the one she taken down, all sorts of sexy horny talk as I kissed my way down her belly. Her free hand opened her pussy and she spread her legs wide and up. I got between them and she guided my cock into her pussy, she moaned a lot as I entered her but she was wet and easy to enter and pushed hard against me before wrapping her legs around my hips. Soon I was pumping my cock in her pussy like no tomorrow with the biggest hard on I had ever gotten. After a few minutes of this she got on top and was in control of our fucking, when she cum she sort of cum real hard. It wasn't like most women I had been with before... I mean she really cum hard and the juices came out all over my cock and balls like the dam had busted. I was like... what in the hell????? I thought she gotten off so good that she pee'ed. I didn't know what squirting was all about then and it sort of it freaked me out. Later she told me this happened when she really was into it and that only one guy had ever made her squirt before. She also said she could make herself squirt when she was really horny and masturbating, always could she said. So right then and there I found out what squirting was all about. Of course I ended up spending the night with her.

For the next 4 months we got together as much as possible. I made her squirt almost every time and boy when she cum she cummmmmmm. Often she cum while on my face; the taste was great, not at all like pee and different than the normal taste of her pussy. Then she quit her job as a waitress and off to California she went to become an actress. She wanted me to move out there but I just couldn't. She flew back a few times and we had some great sex; she always said I was one of the best fucks she ever had and out west she had some big time ones...

We kept in touch and then she got married and we had no contact for years and years. Just 3 weeks ago I heard from her. She is getting a divorce. She told me that her hubby never made her cum like I did and she really misses the way my cock drove into her snatch, misses the great way I used to eat her, wants to suck on my cock again, wants to feel my cum inside her and most of all, wants to squirt for me again, damn she still talked that horny talk. She got me so fucking hard hearing her talk about all that stuff I jerked off when I hung up.

She wants to meet me and have what we had back then. I don't know??? I am married and not free to fuck around
