After returning home from meeting Ben to get my license back I was feeling very guilty about all of this and had to figure out some way to put an end to it before my husband or my parents found out. After all there would be no excuse in their eyes, I mean here I was young, pretty, wealthy parents and had always had everything I had wanted how were they ever going to understand any of this. I just couldn't let this ugly black man keep using me like this even if I had liked the sex part of it. After waiting a couple of days Ben called me again he talked in his usual fashion calling me a slut and a bitch among other things he finally asked if I was ready to get my credit card back. I explained to him that I had to stop this that someone would find out and that it could ruin my life and a lot of people would get hurt. He replied you like me fucking you and using you now don't you, I do things your little white boy husband can't do to you. I begged and pleaded with him until he agreed to think about it and he said he would call me back the next day. On Thursday afternoon Ben called me back and said he had thought about it and that if I wanted him to leave me alone that I would have to agree for one last meeting on his terms or the deal was off and that I had only one chance. Thinking this was probably the only way to stop this I finally agreed and asked what he wanted. He said that I would have to come on Friday and stay until Saturday with him and he would give me my card back and that he promised he would not call me again. I told him that I talked to my husband every night at 10pm on the computer that we used instant messaging to talk and that he would be worried if I wasn't there to talk with him Ben said that it wouldn't be a problem that he had a computer I could use, so finally I agreed to meet him at 5pm on Friday then Ben said that there were two conditions or the deal was off, he said I had to shave my pussy for him and wear a short dress for him neither of which I had ever done before I argued with him about shaving and told him I had never done that and asked him why and he said so he could be the first to see my pussy shaved bald he told me not to worry it would grow back before my little white husband came home. On Friday morning I got up and went shopping because I didn't have any dresses that short and found a sun dress that came down to about mid thigh. That afternoon I took a bath and used hair remover to take the hair from down there it actually kinda excited me I guess from being the first time. Ben met me that at the service station and I followed him to his house after taking my suitcase inside Ben told me how good I looked he was sitting in a chair and made me come over to him he reached under my dress and pulled my panties down to my knees when he touched my pussy he said damn girl you are already wet you really are a slut ain't you, and when I didn't answer he again said now ain't you bitch and I softly replied yes I couldn't understand why I got so wet every time I was around this man. Ben made me pull my panties back up and said come on we have to go somewhere I asked where and he said you will see. He made me drive and we drove to another house he made me get out with him and we went inside where there were 3 other men all of them older black men also and all of them stared at me and asked they wanted to know who I was Ben told them this is who I've been fucking lately and they laughed I guess they thought he was lying but it embarrassed me. They played cards for a while playing for money I sat beside Ben and watched, all of the men kept staring at me which made me very uncomfortable every once in a while Ben would put his hand on my leg. They were drinking the whole time also at about 8pm we were getting ready to leave and on the last hand Ben said now the winner gets Megan's panties, I couldn't believe this but knew there was little I could do. One of the men who was missing a front tooth won and Ben made me stand up and take them off and give them to him it was so embarrassing. After that Ben made me go on to the car and shortly after that he came out and we went back to his house. As soon as we were inside he started touching me all over playing with my ass and pussy he kept talking very dirty to me asking me if I liked all them men looking at me knowing they wanted to fuck me to, his breathing was as heavy as the first time he tried on the first day we met, he made me pull his pants down his dick was extremely hard for some reason he made me suck on it. After that he made me lay on the couch where he spread my legs wide and played with my pussy he then took his dick and slapped my pussy with it before fucking me, he came inside me again before I could stop him never taking my dress off. After this I took a quick bath and put on my pjs which I always wear Ben was just sitting in his boxers, by this time it was almost time to talk to my husband so I told Ben what I was doing and went to the computer desk and sat down and in a few minutes I was talking with my husband. I was typing and trying to talk to my husband and Ben came over and stood behind me and reached around and started touching my breast I tried to stop him but he kept touching me and talking in my ear saying you talk to him while I play with your titties. This went on for a few minutes and then Ben came around to the side and had taken his boxers off he had his dick in his hands and pulled my head over and made me kiss it the whole time I was trying to type and talk to my husband. Ben then made me stand up the whole time I was protesting, but he wasn't going to stop, he sat down in the chair and made me sit in his lap, he started touching me again and started his dirty talk again telling me to talk to my white boy husband while I play with his little white wife what would he think if he knew a black man was feeling his little slut wife right now he still thinks he's the only man that's had that pussy don't he. Ben then made me stand up and he pulled my pj bottoms and panties off at the same time he took off my top, the whole time I was trying to talk to my husband. Ben was sitting in the chair and he made me sit down on him his cock slid all the way in me I guess from being fucked just an hour before as he fucked me he kept saying what would your husband think now bitch a big black dick fucking his wife while you are talking to him now fuck that dick bitch in a few minutes I had the most intense orgasm I had ever experienced and soon after he came inside me again, my husband even asked one time why it was taking me so long to respond. The next morning I was in the bathroom taking a bath I heard Ben talking to someone when I got dressed and went into the other room it was the man that had taken my panties the night before they were sitting there talking and Ben told me to come sit down he then explained that this man had paid him to see me naked but he wasn't going to let him fuck me, I immediately protested and said no Ben told me to shut the fuck up now stand up and take those clothes off. I nervously got up and started taking my clothes off, when I was undressed Ben made me turn around and show the man my whole body. Then the man asked Ben if he could touch me and Ben said why not he made me go over to him and the man started touching me the whole time my body was shaking after he had touched me for a while he asked Ben if he could eat me I said no but Ben said yeah the bitch might like it and asked if I liked getting my pussy eaten and I told them I had never had that done before. They made me sit down on the sofa beside Ben and spread my legs the man came over and

got between them as soon as his tongue touched my pussy I jumped the mans tongue ran all over my pussy he fingered me and eat me while Ben sat beside me and watched the whole thing in a few minutes my body was convulsing out of control I had another orgasm in front of both of these men After he was finished the man told Ben he should let him fuck me but Ben told him no but that HE would let me jack him off I said no again but it was to no use the man took off his clothes his dick was long but not as thick as Bens they made me sit down beside him and I played with his dick until it was hard he told me he had never been with a white girl before that my hand looked good on his dick I jacked him off until he came on my hands,after he left Ben fucked me once more and then give me my credit card back so far he has not tried to contact me anymore it has been about 3 months now.
